WATER CONDITIONING

102 Charbonnet Road • Duson, Louisiana 70529, U.S.A.
Phone: (337) 988-2360 • Fax: (337) 981-7922 • www.waterking.com

Dear Customer,

I would like to introduce you to Water King and our water conditioning products. Since 1934, we have been delivering experience, quality and service. Water King distributes pressure softeners, ion-exchangers and filters with steel or fiberglass tanks and our exclusive Taskmaster™ control valve. The next time you are in need of industrial or commercial water treatment equipment, we want you to consider Water King.

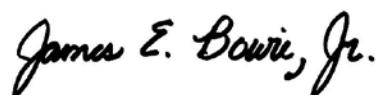

EXPERIENCE- Providing you with the best technical support in the industry. By education, by vocation and by commitment, we know and support our products. Our staff has acquired experience through years of working with our equipment, extensive study and exposure to a broad range of applications. We properly size our products to meet your specifications. We are readily available for phone consultations, quotations and technical support.

QUALITY- Delivering a complete, packaged product to meet your needs. Quality products combine quality materials and components, which are carefully assembled and delivered quickly, consistently and accurately. Each tank, valve, pipe, and all media combine to make the best possible system. We strive for first class fit and finish with components that will last indefinitely. Each step in our assembly process is designed to be consistent and repeatable.

SERVICE - Delivering a durable product that is easy to install and maintain. Our systems use reliable components that function automatically. Our Taskmaster™ five-cycle valve is the most reliable and most easily repaired valve available. Water King's network of representatives provides local service.

Water King is interested in forming a mutually beneficial relationship with you and your company that will meet all of your water treatment needs.

Sincerely,

James E. Bowie, Jr., Ph.D., P.E.
